SNORKELING, YES OR NO?

I talk am going to write about my opinion on snorkeling. Snorkeling is an activity to find the water animals and how they live. For snorkelling need not much things: fins, a facemask, and a snorkel. You do not need this line because this is not a descriptive essay!!!

I think so the snorkelling couldn’t be prohibited, because it is important to know the marine life, but don’t perjudice the environment.

This is a poor piece of writing. You are supposed to write a POSITION (OPINION) ESSAY: consequences that snorkeling has on coral reefs and also, the reasons why you do or don’t support it.

You didn’t write a closing paragraph (conclusion) either.
