Snorkeling is the practice of swimming at the surface of water equipped with a diving mask, a shaped tube called a snorkel, and usually swimfins. The primary attraction of snorkeling is the opportunity to observe underwater life in a natural setting. (This cannot be your opening paragraph because you do not have to describe what snorkeling is like! This is an opinion essay!!!)

You can see coral reefs, fishes, starfish, jellyfish. Snorkeling should not be prohibited, because it’s nice, it doesn’t contaminate although the reefs are very fragile. Snorkeling requires no special training, only the ability to swim and to breathe through the snorkel.

I recommend snorkeling because you can see a lot of sea animals, and beautiful coral reefs. It’s very easy and you have a lot of fun.

??????? ???????? ??????? 1º ESO A

Very nice pictures and good although few reasons. You have to write your introduction again explaining briefly what the topic of your writing is going to be. Remember! This is not a descriptive essay.
